

FORMATIVE ASSESSMENT-IV (2024-25)

MATHEMATICS Model Paper

(English Medium)

Class: VI

Max. Marks: 35

Time: 60 Min.

Name of the student:

Roll No.:

I. Solve the following problems.

2 x 10 = 20

1. What is the formula for finding perimeter of a rectangle?
2. The amount of surface enclosed by a closed figure is called its_____.
3. In algebra, _____ is a number which does not have a fixed value.
4. Are the expressions $(x+10)$ and $10x$ same?
5. What is the perimeter of a square with a side length of **6 cm**?
6. Find the value of **5x** when **x = 3**.
7. Convert the equation $x-7=10$ into an expression for x .
8. Simplify: **3(x + 2) + 4(x - 1)**.
9. A triangle has sides of **7 cm, 8 cm, and 9 cm**. Find its perimeter.
10. Write the algebraic expression for: "The sum of a number x and its square".

II. Solve the following problems.

2 x 3 = 6

11. Find the rule which gives the number of matchsticks.

required to make a pattern of letter W. Use a variable to write the rule.

12. Find the areas of the following figures by counting number of squares.

13. A square has a perimeter of **48 cm**. Find its side length.

III. Solve the following problem.

1 x 4 = 4

14. The cost of a pen is ₹ x and the cost of a notebook is ₹ y . Write an expression for:

- a) The total cost of **5 pens** and **3 notebooks**.
- b) The cost of **2 notebooks** more than the cost of **4 pens**.

IV. Solve the following problem.

1 x 5 = 5

15. Split the following shape into squares or rectangles and find its area. The measures are given in centimetres(cm).
